MURTHI MOUNITH

Tirupati, India
GitHub

Technologies and Languages

- **Programming Languages**: JavaScript, Java.
- **Web**: React JS, HTML, CSS, Tailwind CSS, Bootstrap.
- **Other**: Data structures and algorithms, SQL, GitHub.

Education

- **B.E. Artificial Intelligence and Data Science**
  Annamcharya Institute of Technology and Sciences, Tirupati. (**CGPA: 7.46**) **2020 - 2024**
- **Intermediate, MPC**
  Sri Chaitanya Junior College, Tirupati. (**CGPA: 7.98**) **2018 – 2020**
- **Secondary School Education**
  Prathibha Vidyalaya English Medium High School, Tirupati. (**CGPA: 9.0**) **2017 – 2018**

Projects

Zomato Website Clone

- **Developed a Zomato clone** using React.js and Tailwind CSS, replicating key features such as restaurant search, user reviews, and location-based filtering to provide a seamless user experience.
- **Integrated responsive design** principles with Tailwind CSS and vanilla CSS, ensuring optimal performance and visual appeal across various devices and screen sizes.

Real Time Weather Web App

- Real-time Weather Web App: Displays live weather updates.
- HTML/CSS for styling, JavaScript for real-time data retrieval.
- **Demo Link**: Weather App

Gender and Age Classification with real time facial images using Deep Learning Models

- Developed a real-time gender and age classification system using Convolutional Neural Networks (CNNs), achieving state-of-the-art accuracy and efficiency on the UTK facial dataset.
- Optimized the model to use minimal system resources while maintaining high efficiency.
- Integrated webcam input for real-time predictions, enhancing applications in security and targeted advertising.

Certifications

- **NPTEL Certification** – Data Structures and Algorithms (Java)
- **HackerRank Certification** – React.js
- **Skyscanner Front-End Software Engineering Virtual Experience** – Focus on React.js

Hobbies

- Exploring technology trends through YouTube Science/Tech videos.
- Photography and reading tech news.
